SUMMARY

With a strong passion for data management and an in-depth understanding of business analytics, I am excited to leverage my skills in information analysis and business intelligence tools to achieve data-driven outcomes and support impactful projects. As a certified business analyst, I specialize in analyzing complex data patterns to develop strategies that empower managers. By integrating data insights into organizational processes, I strive to drive improvements and foster a culture of data-driven excellence within the team.

EXPERIENCE

Executive Assistant

On Lok Senior Health Services

📅 2017 - Present 📍 San Francisco, CA

- Manage workflow of critical projects for the Chief of Government Affairs and Compliance.
- Enter, update, and maintain databases in organizational systems, ensuring accuracy and completeness.
- Generate routine reports and summaries for program leaders and teams to review.
- Perform data analysis to support program activities and decision-making.
- Develop tools and dashboards for tracking, reporting, and monitoring project program metrics, deadlines, and deliverables.

Regulatory Affairs and Compliance Specialist

On Lok Senior Health Services

- Completed an enterprise project to review and revise 350 internal policies and procedures.
- Coordinated 3–5 projects to implement regulatory changes, provide audit preparation, and monitor corrected actions quarterly.
- Reviewed and identified quality issues in CMS/DHCS reporting for the Quality Assurance team before submission.
- Developed guidelines and protocols for the regulatory affairs and compliance team.

Department Coordinator

On Lok Senior Health Services

- Coordinated projects for 3 government affairs workgroups, enhancing compliance procedures by standardizing protocols.
- Passed CMS annual review by auditing compliance across 5 business units, identifying key noncompliance issues.
- Responsible for internal and external communications and other administrative duties of the department.

PROFESSIONAL SKILLS

Artificial Intelligence	**Data Reporting**
Data Visualization	**Information Analysis**
Executive Services	**Project Management**
Machine Learning	**Statistical Modeling**

PROJECTS

Analysis of Stroke Risk Factors

📅 09/2025 - 10/2025

🔗 https://github.com/lokidamenace/capstone_project

This project aims to examine key factors associated with stroke risk using a publicly available stroke dataset. In addition, the study seeks to develop predictive and interpretable models that can identify patients at elevated risk.

Greenhouse Gas Emissions

📅 03/2025 - 05/2025

🔗 https://github.com/lokidamenace/GHG-Emissions

The project uses unsupervised learning to analyze greenhouse gas emissions data, aiming to discover hidden patterns and identify countries or sectors with unusual emission trends.

Strategies for Uber Ridership

📅 09/2022 - 10/2022

🔗 https://healthtechnology.today/new-strategies-for-uber

A KPI dashboard was developed for Uber to evaluate its advertising campaigns. This tool helps identify underperforming airports and develop strategies to boost ridership using real-time data.
