SUMMARY

With a strong passion for data management and an in-depth understanding of business analytics, I am excited to leverage my skills in information analysis and business intelligence tools to achieve data-driven outcomes and support impactful projects. As a certified business analyst, I specialize in analyzing complex data patterns to develop strategies that empower managers. By integrating data insights into organizational processes, I strive to drive improvements and foster a culture of data-driven excellence within the team.

INTERNSHIP EXPERIENCE

 Data Science Intern

Moloco

📅 06/2025 - 12/2025 📍 San Francisco, CA

Moloco helps companies optimize performance marketing and revenue through machine learning-powered solutions.

- Built simulations and statistical models to evaluate hypotheses, validating 5-8% improvements in targeted performance metrics.
- Developed experimental design and metric frameworks that increased evaluation rigor by approximately 15% across R&D testing cycles.
- Delivered data-driven recommendations that supported refinements in Moloco's complex bidding and ad-performance ecosystem.

 AI Intern

UPSIDE Foods

📅 01/2025 - 05/2025 📍 South San Francisco, CA

UPSIDE Foods produces real meat grown directly from animal cells to create sustainable, ethical, and scalable protein.

- Collaborated with R&D and MFG teams to design AI-assisted workflows, reducing targeted manual processes by 10-15%.
- Explored complex bioreactor and manufacturing datasets to identify early predictive patterns, boosting preliminary model accuracy by approximately 5%.

 Data Analyst Intern

ZURU Tech

📅 09/2024 - 12/2024 📍 San Francisco, CA

ZURU Tech uses automation, robotics, and AI to design, manufacture, and build homes more efficiently and at scale.

- Collected, cleaned, and integrated data from 10+ internal and external sources, improving dataset consistency by approximately 10%.
- Wrote and optimized SQL queries that reduced retrieval time by approximately 15%, accelerating recurring analysis workflows.
- Assisted in developing enhanced data-collection and analytics processes, contributing to 10% stronger reporting reliability and decision support.

EDUCATION

M.S., Data Science

Regis University

📅 2023 - 2025 📍 Denver, CO

M.S., Business Intelligence

Full Sail University

📅 2021 - 2022 📍 Winter Park, FL

B.S., Business Administration (Marketing)

Business Administration

City College of San Francisco

📅 2012 - 2014 📍 San Francisco, CA

AWARDS

💎 **Valedictorian**
Full Sail University

CERTIFICATIONS

Professional Certificate in Machine Learning and Artificial Intelligence

University of California, Berkeley (Oct 2025)

Certified Business Analyst

University of California, Santa Cruz (Sep 2023)

Data Science and Analytics

University of California, Berkeley (Aug 2022)

TECHNICAL SKILLS

Google Colab	Microsoft Power BI	
Python	RapidMiner	Salesforce
Smartsheets	SQL	Tableau

WORK EXPERIENCE

Executive Assistant

On Lok Senior Health Services

📅 2017 - Present 📍 San Francisco, CA

- Manage workflow of critical projects for the Chief of Government Affairs and Compliance.
- Enter, update, and maintain databases in organizational systems, ensuring accuracy and completeness.
- Generate routine reports and summaries for program leaders and teams to review.
- Perform data analysis to support program activities and decision-making.
- Develop tools and dashboards for tracking, reporting, and monitoring project program metrics, deadlines, and deliverables.

Regulatory Affairs and Compliance Specialist

On Lok Senior Health Services

- Completed an enterprise project to review and revise 350 internal policies and procedures.
- Coordinated 3-5 projects to implement regulatory changes, provide audit preparation, and monitor corrected actions quarterly.
- Reviewed and identified quality issues in CMS/DHCS reporting for the Quality Assurance team before submission.
- Developed guidelines and protocols for the regulatory affairs and compliance team.

Department Coordinator

On Lok Senior Health Services

- Coordinated projects for 3 government affairs workgroups, enhancing compliance procedures by standardizing protocols.
- Passed CMS annual review by auditing compliance across 5 business units, identifying key noncompliance issues.
- Responsible for internal and external communications and other administrative duties of the department.

Program Coordinator

Bay Area Medical Academy

📅 2014 - 2017 📍 San Francisco, CA

- Oversaw the Phlebotomy Program of more than 500 active students year-round.
- Improved workflow and maintained program efficiency by eliminating unnecessary touchpoints.
- Formed new partnerships in the healthcare community to add more internship sites in Northern California.

Assistant Branch Manager

JP Morgan Chase

📅 2011 - 2012 📍 San Francisco, CA

- Improved customer satisfaction scores to 95% through coaching 25 team members in problem-solving and communication skills.
- Increased customer engagement by 30% by training 10 personal bankers in need analysis and relationship building.
- Responsible for daily store operations when required.

PROFESSIONAL SKILLS

Artificial Intelligence

Data Reporting

Data Visualization

Information Analysis

Executive Services

Project Management

Machine Learning

Statistical Modeling

DATA PROJECTS

Analysis of Stroke Risk Factors

📅 09/2025 - 10/2025

🔗 https://github.com/lokidamenace/capstone_project

This project aims to examine key factors associated with stroke risk using a publicly available stroke dataset. In addition, the study seeks to develop predictive and interpretable models that can identify patients at elevated risk.

Greenhouse Gas Emissions

📅 03/2025 - 05/2025

🔗 <https://github.com/lokidamenace/GHG-Emissions>

The project uses unsupervised learning to analyze greenhouse gas emissions data, aiming to discover hidden patterns and identify countries or sectors with unusual emission trends.

Strategies for Uber Ridership

📅 09/2022 - 10/2022

🔗 <https://healthtechnology.today/new-strategies-for-uber>

A KPI dashboard was developed for Uber to evaluate its advertising campaigns. This tool helps identify underperforming airports and develop strategies to boost ridership using real-time data.
